

I'm writing to ask you to please keep K-LOVE on the FM translators. My community needs the positive and encouraging messages that come from this station. If K-Love is moved to a LPFM station and we lose our signal a lot of my community could possibly be without a vital part of what gets us through the day, especially with as much time as we spend in our cars with the traffic in Hampton Roads. The public needs K-LOVE to stay on the FM translator to provide a listening alternative to the other stations in this area.

Thank you for your attention to this matter,

Nancy Smith
